

## MOLECULE NAME:

---

Directions: Use the Internet to research your molecule. Answer the following questions and take any additional notes. You will use all of this information to create either a Twitter or Instagram post.

- What is the chemical formula?
- What is the geometric structure?
- Does it possess any physical attributes such as conductivity, radioactivity, or toxicity?
- What are its uses?
- What is the common name?
- What is the history of the discovery and historical uses?
- What is the physical state at room temperature?
