

### MOLECULE 1 NAME:

---

- Describe the geometric structure.
- What is the chemical formula?
- What types of bonds are present?

### MOLECULE 2 NAME:

---

- Describe the geometric structure.
- What is the chemical formula?
- What types of bonds are present?

### **MOLECULE 3 NAME:**

---

- Describe the geometric structure.
- What is the chemical formula?
- What types of bonds are present?

### **MOLECULE 4 NAME:**

---

- Describe the geometric structure.
- What is the chemical formula?
- What types of bonds are present?
